

CREATION AND THE BEGINNING OF HUMAN HISTORY

## #11 - The Design of the Solar System

### Psalm 19:1-11

#### PICTURES NEEDED

11-1 Sun and planets

#### NURSERY CONCEPT

The Earth circles around the sun.

#### LESSON CONTENT

Show the visual. (Picture 11-1)

What is this a picture of? This is a picture of part of the sun and the planets that circle around it. The earth is one of the planets that circle around the sun. Earth is a special planet. It is the only planet where there are living things.

What do living things need to live? Living things need air, water and light. They also need ground to live on. The other planets are part of God's design but they don't have the things needed for life.

God loves the earth and made it a special place for people and animals to live.

## QUESTIONS

What is the earth? What is the sun? Why are there living things on the earth? What makes the earth a special place?

## PRAYER

Thank God that he made the earth where you and other things can live. Thank him for the water, light, air and ground that make earth a special place.

## BIG QUESTION

**Why can all people know God through his creation?**

The heavens declare the glory of God to everyone on earth.

## CONCEPT MOVEMENTS

The earth

Make a ball with both hands

Circles around the Sun

Move earth in circle up and around head.

## COLORING

## LESSON SONG

### Twinkle, Twinkle Little Star

Twinkle, twinkle, little star,  
How I wonder what you are.  
Up above the world so high,  
Like a diamond in the sky.

Twinkle, twinkle, little star,  
How I wonder what you are!  
When the blazing sun is gone,  
When there's nothing he shines upon,  
Then you show your little light,  
Twinkle, twinkle, through the night.

Twinkle, twinkle, little star,  
How I wonder what you are!  
In the dark blue sky so deep  
Through my curtains often peep  
For you never close your eyes  
Til the morning sun does rise

Twinkle, twinkle, little star  
How I wonder what you are  
Twinkle, twinkle, little star  
How I wonder what you are
